# Summary

## PICTOGRAMS DESIGNATION

The product can be reheated in the microwave oven.

The product can be reheated in the traditional oven (even cooked for some references).

These plastic, glass and stainless steel products can be washed at least 20 times at 55°C for 1 hour 30 minutes. Made of wood or bamboo, washable with moist tissue.

The product can decompose without harmful effect on the environment.

Reducing the environmental impact of the product by optimizing the quantity of materials used.

The product is recyclable.

Lid : A lid is available for this item.

## PICTOGRAMS DESIGNATION

- Capacity : Capacity to the brim
- IU : Invoicing unit
- Pce/c or Pc per case : piece per case

## SYMBOLS USED ON PRODUCTS AND CASES

**Triman logo** : The silhouette represents the citizen's gesture, the three arrows symbolize the sorting ; the circular arrow as for it evokes the recycling which follows the sorting. A reminder for each of us to commit to preserv our environment.

**Alimentarity logo** : The material used in the product design is suitable for food contact.

**«S» by Solía** : This is the signature of Solía's brand. It is engraved on all our creations.
